

Nilak

Half wall lamp, half portable lamp, this luminaire has no intention of staying in its place. Sold with two stainless steel wall brackets designed to act as fixing books, this lamp has been designed to be carried from indoors to outdoors to suit the seasons and to suit you. Its integral dimmer button allows you to set the perfect light level for a warm evening on the patio or light your dining room with its thousands of LED point light sources. Powered down, it will melt into the decorative style of your kitchen or garden, like a stainless-steel mirrored art object. The new LÖ collection from Sammode has been created in collaboration with Yann Kersalé. The polar inspiration embodied in these 4 luminaires will take you to far beyond the Arctic Circle on a journey through the imagination of the artist. This luminaire is supplied fully equipped with connector and light source. All our luminaires are manufactured, assembled and packaged at our Châtillon-sur-Saône production plant in the Vosges region of France.
